Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, drawn to a device for molding, classified in class 425, subclass 405.1.
- II. Claims 14-16, drawn to a method for molding, classified in class 264, subclass 16.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the practiced by another materially different apparatus, such as one that does not require a base for placement of the die, wherein there are one or more outlet openings extending through said base.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Mr. Eugene Lieberstein on September 10, 2004 a provisional election was made with traverse to prosecute the invention of I, claims 1-13. Claims 14-16 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eugene Lieberstein on September 17, 2004.

The application has been amended as follows:

In The Claims

Non-elected claims 14-16 have been canceled.

In The Title

The title has been changed to --AN ADAPTATION DEVICE FOR MOLDING A DENTAL MATERIAL--.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Applicant has agreed to add elements 10 and 14 to the drawings. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: claims 1-13 define over the prior art since the prior art fails to disclose or suggest the a adaptation device comprising a base, cover, an inlet opening, a source of gaseous fluid, one or more outlet openings and a diaphragm means as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tim Heitbrink whose telephone number is 571-272-1132. The examiner can normally be reached on Tuesday-Friday 5:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wanda Walker can be reached on 571-272-1151. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
